

DT-1010D+

DIGITAL LUX METER

Features:

- Mini lux meter with stable, safe and reliable measurement.
- Wide measurement range 0-200,000 lux and automatic/manual range shift.
- Measuring unit is switchable: Lux or FC.
- MAX / MIN / Data Hold functions, high accuracy.
- Low battery indication & Auto power off, energy saving.

Specifications:

LCD Display	4 digits display
illuminance range	0 -199999 LUX
illuminance accuracy	±4%, ±(6%+5Lux) other visible light sources
illuminance resolution	LUX: < 200, 0.1 LUX
Deviation feature of cosine Angle	30°,±2% 60°,±6% 80°, ±25%
Operation temperature/humidity	0-40°C(<90%RH Non - Condensing)
Storage temperature/humidity	-20-60°C(<75%RH)
Power	9V battery(6F22)
Sampling rate	2 times/s
Spectral range	320~730nm
Sensor type	Silicon photocell
Size/Weight	154x60x31 mm/185g
